Monthly Payroll Jumps To $244,927

Mines of Nevada County Now Employ Almost 2000 Men

A sharp increase in the number of properties being developed, the number of men employed and, of course, in the monthly payroll, marks the Nevada City Nugget's report for October upon mining activities. The report reveals 1921 men at work in some forty odd mining mining properties as contrasted with 1778 employed only a month ago. The payroll has jumped from $226,696 of a month ago, to $244,927 today.

Among the newer projects which have lately become large employers of mine labor are the Omega, the Lava Cap, and the Brunswick, the latter under the management of the Idaho-Maryland.

The evidence of the accompanying table, showing mining properties, men employed and payroll, indicates clearly that since the embargo has been lifted upon gold the tide of capital investment in Nevada county mines is on the flow, and rising faster than many would suppose.

This setting in of a flow tide is reflected in the housing conditions of the entire county. New homes are being constructed. Practically all empty houses are filled. Business blocks that have been dead for a decade or more are being tenanted.

A banker, well known in Nevada City, inadvertently used a term unbecoming to bankers. He referred to present conditions as a "boom". By whatever name it is called this county has obviously become the Mecca of mining men from other states. Montana, South African, Nevada, Utah and Arizona engineers and practical mining men are looking over the field, sometimes to be sure, with nothing more than a hope that they will be able to obtain a property within their means and begin delving.

Nevertheless, capital for mining is coming into the county. Perhaps one of the most significant developments of recent weeks has been the leasing of the tailings of the North Star and the Champion mines. These are now being worked by the flotation process and lessees are confident they will be able to show substantial profits.

BULLION MINE

At the Bullion mine, east of Grass Valley, they are busily engaged in opening up the mine on one of the lower levels by cutting pockets and getting ready to take ore out of the botom of the shfat. The compressor is almost completed and it is expected that the company will start mine operations in about ten days. C. A. Brockington, superintendent, started work on the property about four months ago. He has erected buildings, built a 90 foot headframe, a 150 tone ore bin, and the same sized waste bin, besides laying about 8,000 feet of rails in the mine. The vein exposed in the bottom of the old shaft carries good values for milling. Fifteen men are employed.

EMPRESS

A crew of 40 men are busily engaged in mining and developing the Empress mine in the Newtown section west of Nevada City.

GOLDEN CENTER

The Golden Center mine in Grass Valley, according to reports, is taking out enough ore to keep its 20 stamp mill operating stadily. The company recently installed a large Deisel engine. Recoveries are made by concentration and flotation.

IDAHO-MARYLAND

Concrete forms have been laid for the headframe and surface structure at the old Brunswick shaft, which is now being reopened by the Idaho-Maryland interests. Headframe, ore bins, and compressor and hoist houses are expected to be completed in the next six weeks. The shaft which connects with the new Brunswick shaft on the 1250 foot level, is being cleared and retimbered. With steady pumping in the last three weeks the new Brunswick shaft has been unwatered to the 475 foot level. Working three shifts a small crew is within a few feet of the open shaft below the caved portion and will break through to the lower

Sheriff Trails Coupon Thief To Fresno

Stranger Cashes In To Tune Of $180.00 On Coupons Already Paid For By This City

Sheriff George R. Carter is hot on the trail of one, E. Schultz, a recent visitor in Nevada City who is believed, during the recent audit of the city's books, to have slipped into the city hall and stolen presumably cancelled coupons paid on Nevada City's general utility bonds. He is supposed to have done this while the accountants were out to lunch, and the city's books and various documents were spread out on the big table in the council room.

These coupons as it turns out, were paid, but not properly cancelled.

After an attempt to cash the coupons at a San Francisco brokerage house, of which the sheriff was promptly notified, Scholtz appeared in Fresno, cashed coupons to the amount of $180 at a Fresno bank, skipped his hotel bill and disappeared, according to advices received by Sheriff Carter.

In his Fresno hotel room where he registered as "D. J. Beauzaif," he left a handbag with a Grass Valley Laundry bill in it bearing his name, "E. Schultz," and a shirt with the Grass Valley laundry mark on it. It was learned yesterday that E. Schultz had spent several days in Nevada City.

Inquiry received by the Bank of America officials in this city from the Fresno bank which cashed the coupons, speedily resulted in the discovery that these coupons had been paid a long time ago, but that they had not been perforated by the banks cancelling device. The practice of the bank is to perforate the envelope containing the coupons with the coupons inside. Sometimes a number of coupons within the envelope thus escape perforation.

Sheriff Carter is positive the man will be picked up shortly. He has a description of him and this has been placed in the hands of police throughout the country.

THREE ACCUSED OF FELONY ARE HELD TO ANSWER

Judge W. L. Mobley, sitting for Judge Oscar Winburn, in the Grass Valley township justice of the peace court, yesterday held Herman Fisk and Bessie Jerrald to answer on charges of grand theft. The two are accused of stealing a valuable stick pin from Jack McKinnon.

Sitting in the local township court, Judge Mobley held Emil Abadie to answer in the superior court on the charge of drunken driving. Abadie in passing a car just west of the Gault bridge, is allaged to have been so drunk he swerved over too far and went over the bank, injuring his companion, Jack Corocran.

Bail for all three was fixed at $1,000 each. Both cases were prosecuted by Deputy District Attorney Robert Tharp.

Mrs. George Adair of Pacific Grove is visiting relatives in the Twin Cities. She is now the guest of her sister-in-law, Mrs. Fred Miller. Today she is the guest of Mrs. John Evans and will later visit Mrs. Jennie Schroeder of Prospect Hill.

Auditors Find City Books in Good Shape, But Condemn System

L. M. Straine & Company, public accountants, of Sacramento, have completed an audit of the city's books, and in their report just rendered, have found many conditions which they believe should be rectified. The criticisms, in general, are not with the figures, collections, expenditures, or results achieved, but with the system, or lack of system, with which the city does its business.

Their criticism is generally constructive and in pointing out the wrong way in which the city's business in handled, in some departments, they also recommend a way which they regard as more business like and accurate.

Four Years Covered

The report covers four years, from July 1, 1929 to June 30, 1933.

The recoerds of the city treasurer's office, the accountants found, were in good condition, but they recommended that instead of permitting the bank to deduct payments for the bond redemption and interest, without securing city warrants that warrants be issued and coupons and bonds to be simultaneously cancelled. These cancelled coupons and bonds should then be pasted in a book and retained by the treasurer.

Cancellation Of Taxes

With reference to the collection of taxes, the accountants recommended that hereafter when the assessor had completed the tax roll it be footed, proved and turned over to the collector, who is charged with the total amount of money to be collected. He is then credited with all the monies collected up till the date of delinquency.

Immediately following the delinquent date, the delinquent tax roll should be placed in the collectors hands and all the collections on the delinquent roll entered therein and credited to the collector.

In some cases, the report states, it was found that redemptions had been allowed without collecting penalties or costs.

The account of the chief of police were examined and found to be in keeping with the system installed by the accounting firm. This was also the case with the police judge.

BUSINESS LICENSES

A paragraph was devoted to the fact that Nevada City is the only one of the 6th class which does not have a business license ordinance. The opinion is advanced that the city could secure considerable additional revenue if such an ordinance were inacted. The accountants believe that the ordinance for the regulation and licensing of peddlers, designed to protect local merchants, is discriminating and, it would follow, unconstitutional.

WATER SYSTEM RECOMMENDATIONS

Considerable space is devoted to water collections, and the conclusion reached is that:

1. Bills should be made out in triplicate.

Editor Who Attacks Supervisor Bigelow Rebuked by Sierra Co.

Downieville, Cal. Oct. 18, 1933

To The Editor of
Nevada City Nugget:

WHEREAS a recent issue of the Mountain Messenger published in Downieville by M. T. Ayres contained an editorial attacking Forest Supervisor R. L. P. Bigelow as being out of sympathy with the interests of Sierra County, the undersigned business and professional residents of Downieville hasten to assure Mr. Bigelow and the public that the Ayres editorial does not reflect the sentiment of the people of Downieville and Sierra County.

On the contrary we condemn the statements made.. as being unwarranted and without any foundation of fact.

We feel that Mr. Bigelow has administered the affairs of the National Forest fearlessly and impartially, and has filled a difficult position with rare tact and judgment.

We have not forgotten that the Yuba Pass Highway from Downieville to Sattley.. was accomplished through his untiring efforts.. We are also indebted to him for the Gold Lake road, the Lavezzola road and the Hay Press Valley road upon which construction has just begun.

The road down the North Yuba which will be started shortly is another project for which Mr. Bigelow has our thanks.

Besides these roads, many miles of new roads have been built under his administration, connecting isolated localities with main roads.

As an official and a gentleman, Mr. Bigelow merits and has the sincere respect and esteem, of the people of Sierra County.

Our City Government

An audit of the city's business affairs has just been completed by a Sacramento firm of accountants. A synopsis of their report is found on the first page of this issue. In so far as the city's fiscal affairs are concerned the auditors return a satisfactory report. But as regards the conduct of the city's business, by the city council and other officials, the report is filled with recommendations for better methods.

No one who thinks at all about the city government can find it in his heart to censure the members of the city council, who do the best they can, with little means to do with, and serve faithfully and devotedly for the honor of serving.. This will also apply to the city officails who discharge their onerous duties for relatively little wages.

But everyone will hope that the council and officials affected by the report, will accept the advice of the accountants regarding the adoption of sound methods in conducting the city's business affairs. In the long run the sound and well tried methods of conducting municipal business are the cheapest.

Laxity and slackness, implied in the report of the auditors, can prove immensely costly. In this connection we will tell an illustrative story.

The Union School District of Galt, some years ago built a high school structure costing $100,000 and more. Hardly a year had elapsed until the building burned down. It then developed that the trustees had insured it for but $20,000. Twice a bond election was held and the proposal to build a new high school building was defeated. The third time it carried by a narrow margin. The negligent school trustees were of course all defeated. They were individually honest business men but as a board they had been at odds and did not use their business training in the conduct of the school. Their negligence in this instance cost the taxpayers of their district well over $125,000.

UNCLE SAM IS ASKED TO PRACTICE WHAT HE PREACHES !

The American Federation of Labor is now taking a leading part in persuading the Federal Government to put salaries of government employees back where they were before the 15 per cent cut was put into effect. Aiding the American Federation of Labor are the merchants of Washington and their official organization, the Washington Chamber of Commerce.

Washington depends much on the government pay-roll. Federal employees make up a large part of the buying power in Washington. They rent homes, go to the theatres, buy clothes, food, coal, automobiles and use electricity and gas. In that respect, Washington is like a University or College town.

But the issue of reduced government salaries and wages, contends the American Federation of Labor, is more signifi-cant than that. The Federation believes the Federal Government and the state governments should apply the principles of the National Recovery Act to themselves when asking private industry to do so—And Why Not?

In the last analysis, the position of the American Federation of Labor is difficult to attack. Granted that the strong demand for reduction in taxes has made itself felt in requests for reduced federal and state budgets, sight should not be lost of the fact that every federal and state employee is a consumer of many goods and services, a contributor to taxation, and a spender of money.

Discharging federal and state employees simply adds to unemployment, throws a larger burden on those who are now employed, and makes the job of raising adequate taxes, in terms of those who remain at work, that much more difficult.

Granted that taxes are high, most people are willing to admit they would not want to do without the things for which taxes are spent—in many cases could not do without them, to say nothing of the purchasing power created by those whom taxes employ.

In this day and age, where can you find the person who is willing to go back to the days of the horse and buggy and the dirt road? Or to the days of the old kerosne lamp or the drinking well where we used to have to walk a mile or so to get the water? Who, these days, would go without gas, electricity, paved streets, running water, fine roads, adequate fire and police protection, all the preliminaries of a modern civilization?

Even in the country districts, the little red schoolhouse of yesterday is no more. In its place is the modern Union school, offering all the advantages of modern schooling to the farm boys and girls. Who would say those farm boys and girls are not entitled to as good educational facilities as may be obtained in the city?

Of course, the facilities of modern civilzation cost a lot of money. That is to be expected. And a great part of the progress of civilization is n the direction of education.

The point is that all things are relative. When the United States enjoyed its period of so-called prosperity, no one raised any objection to taxes and expenditures of money for public good. The demand for public welfare and public improvement is just as great, perhaps even greater, today as it was in those good times.

The answer lies not in less taxation, but in more adequate methods of taxation, so that the proceeds of taxation may apply most beneficially to the largest number in terms of the largest amount of good.

NO HUNGER IN SCHOOLS ORDERS U.S. RELIEF HEAD

SACRAMENTO, Cal. Oct. 19, (UP) California must have no hungry children in its schools.

A letter authorizing the state to embark a program of child-feeding for school children of families on relief lists has been received by Gov. Rolph from Harry L. Hopkins, the federal emergency relief administrator.

"This is to authorize the state emergency relief adminstration to institute a program of child-feeding in the schools for the children of familites now on relief rolls, who are attending school, where examination indicates malnutrition and under feeding," the letter stated.

"The authorization is limited to the children of families on he relief lists and is still further limited to one meal per day.

The child feeding program is to be entirely under the direction of the local emergency relief committee, or its authorized agents. Relief committees, however, should not relax their efforts to provide in the homes suffifficient nourishing food, so that pre-school as well as school children may be properly fed.

"Considering the difficulty of providing adequate and proper food for children in the homes," he wrote," I am anxious that safe-guards be established to the fullest extent possible against malnutrition among the children.

DEVELOPMENT OF LAVA CAP MINES IS UNDERWAY

Rapid strides are being made at the Lava Cap mine southeast of The Lava Cap mine has two main shafts on their large holdings that are practically two mines and as development work is performed on them they are designated as the Nevada City in the last few weeks. Central and the Banner shafts.

Unwatering of the Bell Shaw shaft at the Banner has started. The new hoist is completed and working splendidly. Construction of the 250 ton daily capacity mill is under way and it is expected that it will be ready for operation by November first.

Lateral development at the Central shaft has started on the 200 foot, 300 foot, and 400 foot levels.

SUPERVISOR ARBOGAST IMPROVES BANNER ROAD

Supervisor Cary S. Arbogast has had a crew of men with several trucks hauling crushed rock out to the southern limits of Nevada City where they have improved the Banner road. When completed he will have about a mile of splendid road in readiness for travel to and from the Lava Cap mine.

The company is using diamond drills in order to explore territory adjacent to the present workings.

A tailing stand is also under construction at the Lava Cap property and a pipe line, is being built to carry water to the mill and for mine work.

The company employs 70 men.

Otto E. Schiffner is in charge of operations.

TWENTY TWO STUDENTS ON HI HONOR ROLL

Reports for the first six weeks of school were issued Thursday to students of the Nevada City High school. Twenty two students won places on the honor roll as follows:

FRESHMEN:—Wylie King, Adele Joerschke.

SOPHOMORES:— Eleanor Willoughby, Roxanne Boggs, Covey Wills, Cecelia Woods, and Bill Polkinghorn.

JUNIORS—Isabel Dunlap, Franklin Tuttle, Margery Williams, Mae Arbogast, Alice Hannesain, Audrey Davis, and Warren Mooers.

SENIORS:— Beryl Godfrey, Joe Cicogni, Erma Keller, Naomi Whitley, Margaret Phariss, Phyllis Williams, Norma Kessler, and Violetta Ford.

Mr. and Mrs. Harry Bolton and daughter, Alberta, motored to Petaluma for a visit with relatives early this week. While there they were called to Gustine on account of the serious illness of a sister-in-law.

MINING DEVELOPMENTS

(Continued from page one)

levels this week. Power lines are being put in and two 500-gallons-per-minute electric pumps will start unwatering as soon as the water level is reached.

NORTH STAR-EMPIRE MINE

The mile-long overhead tramway from the North Star-Empire mine, which crasses the highway south of Grass Valley, is again conveying ore from the North Star to the mill at the Empire mine. A strike of excellent ore was made recently in the deeper workings of the North Star.

RIVER PLACERS GRAVEL

M. Hughes and partner, leasers of the River Placers Ltd., have struck the bottom of the encient river channel. A recent four days run took out $800. It is reported a pan of gravel and gold taken from a crevice a few days ago contained six ounces of gold.

DELHI MINE

A crew of fifteen men are employed at the rich old Delhi mine, north of Nevada City, reconditioning the tramway. Louis Nonneman and sister of San Francisco are the owners of the property.

FRENCH CORRAL MINE

After the high gravel banks are blasted down the cemented grvael and loose material is fed into a 30 foot trommel by a bull dozer caterpillar. A power plant operates the trommel. Water for washing the gravel is taken from a "glory hole" on the Esperon ranch. Ben A. Wise is manager.

EAGLE BIRD MINE

The Eagle Bird mine south east of Washington, started sinking an incline shaft this week. The new headframe is practically completed and work is progressing on the the skipway. A crew of 20 men are employed. J. W. Stiil is superintendent.

CYCLONE MINE

A raise is being made at the end of a 200 foot tunnel at the Cyclone gravel property near North Bloomfield. P. C. Peterson and son, Elmer, have a lease on the property and are being assisted by five other men in the reopening of the ground.

ZEABRIGHT

The mill at the Zeabright mine in Bear Valley east of Nevada City, is crushing 35 tons of ore daily and using the plating process in recovery of gold. The milling ore is being taken from a 16 foot ledge. The company is driving tunnel ahead. A blacksmith shop has just been complted and wood is being hauled to the mine. Plans are to operate this winter. E. Holm is superintendent and Elseworth Bennetts manager. Twenty men are employed.

SPRING HILL MINE

The Spring Hill mine, which lies between Nevada City and Grass Valley, has just completed cutting a station at the 900 foot level. Plans are to start drifting on the vein in order to test ore values and develop the property.

STOCKTON HILL

The Stockton Hill mine, below Grass Valley, has erected a hoist, installed a compressor and is installing a Deisel engine. A small mill is to be erected as soon as development warrants.

AMALGOLD

I. E. Martin, using the amalgold process, is installing tables and other equipment necessary to handle the tailings of the North Star mine, south of Grass Valley, on which he has an option.

The equipment is being installed at the lower end of the tailing pond. He has a crew of three men employed.

BLACK BEAR MINE

The Black Bear mine in the Rough and Ready district, is being deopened by the Cooley Butler interests. Reports are they have encountered good pay ore in the old Schroeder tunnel.

BUNKER HILL

Charles Gyp is in charge of eight men reopening the Bunker Hill mine. It is being financed by a Nevada state company.

KEYSTONE DIVIDE

At the Keystone Divide mine, southwest of Grass Valley, the company has just installed a new 1450 pound capacity bucket and placed it in operation with the new hoist and headframe. A sump was completed at the 100 foot level and two pumps are installed to handle a heavy flow of water encountered recently, so sinking operations can go forward. The company plans to open ore on the 200 foot level, in the vein now exposed on the 50 foot level and sink to the 300 foot level. E. H. McMurray is president of the company.

WEST NEWTOWN

Satisfactory progress is being made in the West Newtown mine, now being opened by Personini Bros. The property which was recently leased by C. E. Clinch of Grass Valley and associates, lies north of the Empress mine and good ore was found in the last few days on the 65 foot level.

MISTLETOE MINE

John Fontz, of Grass Valley, has a crew of six men reopneing and rehabalitating the Mistletoe mine. C. E. LaBoyteaux is in charge of the property which lies in the Rough and Ready district.

SPANISH MINE

The mill at the Spanish mine, north of Washington, is running steadily on good ore. The two mile tramway is practically completed.

GENERAL GRANT

Gilmore Bros., Dr. Swartz of Los Angeles, and O. C. Poff after driving a 400 foot tunnel are making a raise in gravel that averages $2.00 a car in the General Grant mine, in the Iowa Hill district, east of Nevada City. The channel just tapped is 300 feet wide and six feet deep, according to Mr. Gilmore.

MURCHIE MINE

Capacity operation on excellent ore is reported at the Murchie mine, east of Nevada City, where the 200 ton daily capacity mill is treating ore from several levels. Excellent results were obtained on the 1600 foot level in recent development. Production is said to average around $70,000 monthly.

IN THE WORLD OF SPORTS

Your Correspondent Takes His Typewriter in Hand to Jump the Gun on the 1933 All-America Team Guessing Season

BY PHILIP MARTIN

THE All-America-Team-Guessing fever epidemic is not due for some time yet, but your correspondent suddenly has been taken down with a rush of prognostications to the head And so we're going to offer for your approval—or sneers—the lads we think most likely to make the All America grade this season

* * *

FOR ends, how about Ford Palmer of Southern California and Joe "Muggsy" Skladany of Pitt? "Muggsy" was All-America in 1932, and one thing seems to favor an encore Jock Sutherland's team promises to go great guns again this year; and with Mike Sebastian back there flinging passes, "Muggsy" will have plenty of chance to strut his stuff. We think he'll outdo himself this year.

Ford Palmer's selection as captain of Howard Jones' 1933 squad provides him with the All-America incentive. He'll be setting an example for the other U. S. C. lads, and if his work with this topnotch team stands out, his place on the A. A. roster seems assured

They say a football team is just as strong as its tackles. If that's the case, Duke U and Louisiana State should be plenty good this year. In that youthful giant, Freddie Crawford, Duke has a gridiron prodigy. At least Duke's coach, Wallace Wade, has remarked that Freddie was the best tackle he ever handled. He is exceptional All-America material; so is Tackle Jack Torrance of Louisiana State. The latter, a lad of phenomenal stature—six feet five inches tall, weighing 240 pounds—carries his bulk lightly as he gallops down the field.

He's as good on the gridiron as he is at track meets; and Torrance, as you may know, is co-holder of the world's shotput record.

* * *

BILL CORBUS of Stanford and Aaron Rosenberg of Southern California are our guesses for the guard berths on the All-America. Bill was All-America timber last year, and should be the big light in "Tiny" Thornhill's galaxy this season. The sterling work of his brother linemen, Tay Brown and Ernie Smith, last year, overshadowed "Rosy's" deeds, but with his naturally improved technique this year, he should stick out like a sore thumb.

The center post goes to Chuck Bernard of Michigan, Kipke teams always must have a good line because of the coach's policy of kicking and waiting for the breaks. Since the center of the line bears the brunt in this style of play, Chuck's work this year should bring him national recognition.

Art Kreuger of Marquette is another center who deserves mention. With a tougher Marquette schedule, Art probably would outshine even Bernard.

The chap who deserves a lot of credit for the Colgate record of last year is our best for the A. A. quarterback berth this year He is Charley Soleau, who directed the 1932 undefeated, unscored-on Colgate squad. If Charley repeats his good work this season, he should get the call over Homer Griffith of U. S. C.

* * *

TWENTY or 30 outstanding candidates for the halfback post make this selection a tough chore. But, letting the chips fall where they may, we'll put the finger on Beattie Feathers of Tennessee and Frank Froschauer of Illinois.

Feathers, who can pass, kick and run with the best of them, rambled all over the southern gridirons last season. And Froschauer, an Illinois junior, will be out there trying to live up to the "1933 Red Grange" title predicted for him by his public.

Purdue, we venture, again will hold down the fullback post on the All-America eleven. In Fred Hecker, the Boilermakers have a ramm' fool who can make holes in a line where they ain't. And we think he'll get the nod from most of the All-America team pickers.

Some grid stars of All-America caliber are shown above. Top, left to right, Joe (Muggsy) Skladany, end, of Pitt, and Bill Corbus, scintillating Stanford guard. Below, left to right, Frank Froschauer, Illinois U. halfback; Chuck Bernard, Michigan center, and Ford Palmer, Southern California end.

SACRAMENTO POLICE ARE FAST WORKERS

LODI, Calif., Oct. 19th.—(UP)—When it comes to recovering stolen automobiles, the Sacramento police are pretty fast workers, in the opinion of Perrin Brothers, local automobile dealers.

A new machine belonging to the dealers had been recovered by the capital police, Leo Perrin was informed by telephone. The car had been stolen from the firm's saleroom here, according to the report.

Investigation by Perrin proved the officers were right—but it was the first knowledge the dealers had of the roobbery.

RABBIT WINS OUT IN BOUT WITH DOGS

WOODLAND, Cal. Oct. 19,—(UP) All rabbits apparently are not as timid as most people are lead to believe.

For instance, a rabbit owned by G. J. Savage was declared the winner after a backyard free-for-all with two bulldogs.

At the end of but a few minutes combat the dogs retired, somewhat chewed up, leaving bunny in full possession of the yard.

Possibility that the rabbit would challenge greyhounds for its next bout was discounted.

ENRICHED BY PENNIES SMASHED $30 SPECS.

SACRAMENTO, Cal., Oct. 19 (UP) Being a Good Samaritan does not always pay, according to Lawrence Montfort, local newspaperma.

His attention was attracted to an old man who was picking up several pennies he had dropped on the sidewalk. Montford went to the old man's assistance and aided in recovering the coins.

But, as he stooped to pick up a penny, Montfort's $30 spectacles slid from an outside pocket and crashed on the cement walk—Never again is the way Montfort expresses himself on the subject from now on.

The following were recent visitors at the election of officers in Banner Mountain Post and Auxiliary, V. F. W., Nevada City, from Roseville Counsel Administration Member Nellie Parrott, Dist. Inspector Catherine Bledsoe, Nora Stanten, Mary Stilles and Jeanette Pickering

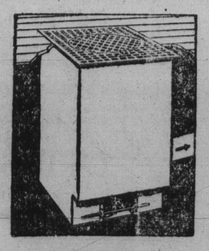
"Why, son, we haven't had a cold winter since '93."
"Now, Mother, the world is not getting warmer. I'm afraid our Gas Heating prompts you to say that."

Gas Heating for comfort, convenience, cleanliness

CALIFORNIA climate presents a heating problem that demands easily controlled heat.

There are no long severe winters. Heat is needed for short periods and it must come quickly. To build up a big fire means wasted fuel. For quick-acting heat that warms floors and walls and circulates into every room corner, climate-wise Californians, rely on Gas Heating for cleanliness and convenience.

Gas is piped directly to the furnace or heater and there is no bother to order or handle it. Gas Heating equipment, too, was developed for California homes. Each of the newest types of equipment have known heat-output ratings ranging from the smaller space heaters to the full automatic warm-air furnaces. Investigate and see. Get the facts.



Floor Furnace

Solves the heating problem for homes without a basement. Highly praised by thousands. Saves floor space and is easy and most economical to install and operate.

Circulating Heater

Attractive, low in first cost and highly efficient. It heats two to four rooms. Made in many sizes and styles. Extremely economical to operate.

Special Events Are On Legion Auxiliary Calendar

During the next two weeks, the American Legion Auxiliary have several special events on their program.

On Wednesday evening the Auxiliary will have a public card party in the Veteran's building. Bridge and whist will be played and nice prizes go to high scores and also for a door prize.

On Monday, October 23rd, the Auxiliary are invited to a special District meeting in Sacramento, at which time H. Challeaux, State Commander, will be there.

The membership quota is 105. All old members are asked to pay their dues and all those eligible to the auxiliary are urged to join the ranks.

Catherine Tognarelli Celebrates Birthday

Catherine Tognarelli celebrated her tenth birthday Wednesday by inviting twelve little friends to enjoy the afternoon.

After several hours spent in playing games all sat down to a prettily decorated table on which was a delicious feast that had as its central adornment a big birthday cake.

Catherine received a number of pretty birthday gifts and happy farewell wishes for many happy returns of the day from her little friends.

Later in the evening her father, John Tognarelli, took her fishing with her cousin, Ida Pratti, and aunt, Mrs. Ratto, to Lake Faucherie located in the high mountains east of Nevada City where she remained until today.

Mr. and Mrs. Elmer Larson of Sacramento called on Nevada City friends Sunday and visited their camp at Pino Alto south east of Nevada City.

Gold Diggers Ball To Be Colorful Event

Picturesque costumes of the Argonaut, the hoop skirts of the Civil War era, the leg-o'mutton sleves and bustles of the "gay" nineties will contrast with the modern garb of 1933 at the "Gold Diggers Ball," a week from Saturday night at the Veterans Memorial Building in Grass Valley.

Prizes, lots of them,will be distributed to the women best exemplifying the periods of styles, while a series of door prizes will be distributed. Every one entering the ball room will stand a chance of winning a prize.

The "Gold Diggers Ball" will be one of a series of events planned for the two day Quartz Gold Discovery celebration, October 28-29. Others will be the five mile cross country race at 2 P. M. October 28; the Kandy Kid Parade at 7:30 P. M., for the same day, a juvenile affair; the dance and the exercises under the direction of the Native Daughters of the Golden West at the Gold Hill Marker on Sundaly, October 29 at 2 P. M.

DR. H B. TOWSLEY TO PRACTICE IN NEV. CITY

Doctor H. B. Towsley, chiropractor, formerly on the faculty of the California Chiropractic College at San Jose, is opening offices at 312 Broad street in the Bennetts buiilding. He will occupy the suite adjoining the offices of Doctor Walter J. Hawkins, dentist.

Doctor Towsley will bring his wife and daughter to Nevada City next week and they will make their home in the former Rude residence on the highway below the high school.

Mrs. W. E. Young, who has been quite ill, was able to be out for the first time Saturday. This is good news to her many friends.

Love Knocks Johnny for Lupe

That the epidemic of heart ailments in Hollywood continues to to flourish became evident when it was revealed that Lupe Velez and Johnny Weissmuller of the film colony had taken out a marriage license. The happy couple are shown above, after their trip to Las Vegas, Nev., for the license.

Shopping Gossip

Well, Nadine it is good to see you again and to talk things over even if we havn't time for a walk today. I brought some lovely material at the Bert's Dry Goods Store to-day and I am taking it to Elizabeth's Dress Shop to be made up in one of those nifty new styles with the leg O'Mutton sleeves and the smooth tight fitting skirt. I know it will just suit me for she seems to know exactly what is best suited to one's individual style. No, she does not supply the materials, but she is right there with the suggestions and the little helps in planning that mean so much to the woman who wants to be fitted in the very latest.

Yesterday when I was down town, I ran in to see the lady in charge of the Orange Beauty Shoppe. She too is giving permanents at the very reasonable price of $3.50. I am sure every one who possibly can should hurry and have their work done before prices soar clear up to the top. Then too, there are all sorts of advantages offered in different and expert beauty work that we all should take advantage of.

Have you tried any of those Yardley preparations which the Phoenix Drug Store is offering? They are certainly exquisite in every detail.

The perfumes bring back lovely long forgotten memories and the soaps and creams are as delicate as the breath of spring. It is an old saying that the best goods, comes done up in small packages, and it is a true one too, for these tiny lavender sachets are most exquisite in odor and should be placed in everyone's clothes closet. Just to view them is to desire them. Don't fail to look at them when next you visit the down town section.

They say the Union Shanty is doing a thriving business these days. It has exactly the location to bring the best results, and of course their sandwiches and drinks are A-No. 1, so why shouldn't they?

Have you reminded all your many friends that they must go in and see Carter whenever they are in need of new glass for their wind shields. The way people drive these days, they certainly need plenty of it, and knows just how this sort of work should be done.

Hills Flat Barber Shop is doing a more and prosperous business since people have come to realize that he is an expert haircutter, and he is always very obliging and considerate of his customers too.

Do you know Nadine, this New Steam Bath out on the Nevada City Highway across from Shaws' ought to bring relief to a great number of people who are suffering from various forms of rheumatism. I don't see why they do not try it when it costs so very little, only 25c, Is not that very reasonable? It is an excellent treatment for colds too.

Yes Francis Botfield is doing an excellent business in the Commercial Building, mending and repairing as well as dressmaking. I am glad you had dinner yesterday at the Tahoe Cafe. It has improved in every way, don't you think so? More people will come to realize that as they visit the place.

Well I am sorry you can't stay any longer—Bye Bye, Be sure to let me see your new dress when it is finished—and don't forget we will soon be ready to make another tour of the shopping district; there are always so many pretty things to be seen.

Fred DeWein, of the Dipper Consolidated Mine near Alleghany, is spending a few days in Nevada City with his wife, who conducts the milinery shop on the corner of Pine and Commercial streets.

Mrs. A. Hartung, who was taken to the Nevada City Sanitarium last week suffering from a carbuncle, still remains very ill.

Jots in Jest

In handling the barber code, NRA wants to know "What's a fair price for a haircut?" It doesn't matter to the customer he gets trimmed, anyway

* * *

If the federal drive on crime continues to be as successful as it has been, the underworld anthem soon will be "I wonder what's become of that old gang of mine."

* * *

Problem. If twins, a boy and a girl, are born in 1960, how old are they in 1933? Answer He's 33 and she's 28.

* * *

If business conditions had continued downward much longer, it wouldn't have been news if a man bit a dog—it would have been survival of the fittest.

* * *

New York City is sorely pressed for money, which is hard to understand, considering its experience in the "borough" system.

THE NUGGET ONLY $2.00 Per year

American Heroines

By LOUISE M. COMSTOCK

Grace Parsons

THE very first long distance horse back ride in American history was made long before the days of Paul Revere, and by a woman. And while the feat of Paul Revere has been given wide publicity, has been dramatized, poetized, burlesqued, the career of Grace Parsons, heroine of the days when Pennsylvania was still frontier and rife with Indian warfare, remains shrouded in mystery.

We know that she lived in Easton, in Northampton county, Pa., the daughter of an English cobbler, who migrated to this country in 1719 and subsequently rose from the shoemaker's bench to be appointed surveyor general of the state.

With the outbreak of the French and Indian wars Pennsylvania, still a border state, was plunged into the horrors of massacre and pillage. The settlers lived in constant terror of the red men lurking in the surrounding forests. One day word was brought to Easton of the massacre at Gnaden Huten in the Lehigh valley, not so many miles away, and the prediction that the Indians, spurred onward by their horrible success here, were bent on further raids to the east.

Panic descended upon Easton. Every resident who could deserted the town, transporting his family and household goods through the wilderness to safety in Philadelphia. Only William Parsons and his family, and a few other settlers, mostly older men and women and children, remained in the defenseless town. With neither stockade for refuge, nor ammunition, their only hope of survival lay in getting a messenger through to Philadelphia with an appeal for aid. No man able to make the journey could be spared. Grace Persons volunteered to take the message.

From the tense moment at which she set out from her father's house, horseback, on her perilous journey, Grace Parsons' name disappears from historic record. No inspired writer found time in those days of turmoil to set down the details of her lone ride through the trackless wilderness, alive with menacing Indians, to reach her goal. No poet has sung her bravery in tripping couplets. We do have letters, however, which relate how word of the plight of the little band remaining in Easton was received two days and two nights later at the military headquarters in Philadelphia, and record that the needed arms and troops were subsequently dispatched and reached the harrassed town. But the Indians, changing their minds, neglected to attack Easton after all!

©, 1932, Western Newspaper Union.

Traffic Officer William Fouyer, of Nevada City and Captain Joe E. Blake, of Grass Valley, are in Oakland this week attending the annual convention of California Highway Patrolmen.

Past Matrons And Patrons To Be O. E. S. Honor Guests

Past matrons and past patrons of the Order of Eastern Star will be honored at a banquet and entertainment this Friday evening in the Nevada City Masonic hall on Pine street. The dinner will take place at 7 o'clock in the evening and the entertainment, which promises many novel features, will begin at 8:30 o'clock. All visiting members in Nevada City are invited to be present.

Mrs. Frank Nilon Hostess To Guild

Mrs. Frank Nilon on Wednesday entertained at her home on Nevada street, the memebers of the St. Angnes Guild. Following an afternoon of bridge, dainty refreshments were served.

HARRIETT BLEAKLEY ON U. C. HONOR ROLL

Word has just reached Nevada City that Miss Harriett Bleakley, a University of California student in the College of Science branch and majoring in Spanish, has made the U. C. honor roll. She is one of 470 students on this list. To receive this honor students must average B grade or better.

Miss Bleakley is a recent graduate of the Nevada City High School, where she passed with high honors.

Mr. and Mrs. Milton Hardie, and Mrs. Idyl Hardie world tourists, visited at the home of Attorney McKee a few days ago.

Mr. and Mrs. Loren Williams were recent visitors in Chico.

4. Duplicate stamped paid bills filed by date of payment.

5. Payments should be entered in day books.

6. No bills should be destroyed if voided—original and duplicate should be pasted to stub.

CITY COUNCIL'S RESPONSIBILITY

The accounts also recommended that all departures from this system be done through resolution of the city council, and that a visible type ledger be adopted for keeping water accounts.

The reports observes that at present outstanding water accounts now total more than $2,000, and the accountants recommend that water be turned off after notice of delinquency has been served and the bills remain unpaid.

This recommendation is directed toward the council: "We found that practically no provision had been made in the past for the proper filing of records and data, such as cancelled warrants, bills supporting such warrants, license stubs, water collection receipts, etc. Therefore, we suggest that you purchase a filing cabinet and insist on all records being properly filed. In addition we recommend that the council consider the purchase of a check protector, a more modern adding machine, and provide cash drawers for the license and water collector. The report then goes on to say:

DOUBTS PRESENT SYSTEM

"The system used in the past for filing, if it can be called a system, is no doubt a contributing cause to the loss of some cancelled warrants and other data."

The report recommends an annual audit, instead of an audit every four years.

The statistical section of the report shows balances on hand on July 1, this year, totaling $17,108, and an overdraft at the bank of $1,211. The swimming pool fund on that date amounted to $11,298.

RECEIPTS

Receipts for the fiscal year ending June 30, 1933 were:
taxes and assessments, $14,320; licenses and permits, $3,271; fines in the police court, $177; interest, $222; franchises, $265; miscellaneous, $915; water department, $17,096. This gives grand total receipts of $36,268.

A statement of the bonds outstanding shows that of $60,000 issued for water works, but $4,500 are outstanding; of $28,000 issued for sewer works, $4,900 are outstanding; of $60,000 issued for street works, $42,000 are outstanding; for the swimming pool $4,000 are outstanding.

TWO BONDS MISSING

In reference to the bonds issued in 1927 for water works this note is appended:

"Of the authorization ($60,000) $57,000 was sold, $2,000 is in the care of the city clerk and, two bonds of $500 each are missing."

An analysis of the city's expenditures shows that the general government cost for the year ending July 1, 1933, was $2,798; city protection, police, and police court, $1,794; street department, $10,605, of which $4,130 was for salaries and truck hire; library, $1,457; water department, $7,560; fire department, $1,337; sewer department, $344; interest on bonds $3,271; bond redemption $5,700; total disbursements $34,868.

Water sales total $17,096, which minus water purchases from the N. I. D. leaves balance of $13,859. From this is deducted operating expenses of $4,323, and $360 for interest on water bonds, leaving a net profit from the water system of $9,176.

HIGHLY RECOMMENDED
October 14, 1933
TO WHOM IT MAY CONCERN:

For many years I have suffered with arthritis and rheumatism along with back and arms and legs and also pains in my kidneys... I suffered so terrible that I could scarcely do my work at all. I went to many doctors and got no relief...Upon the advice of my friends I decided to give H. W. Yee a trial. After four weeks of Herbs my rheumatism and pains are entirely gone. This was one month ago and I have been in excellent health ever since...

YELLOW JACKETS AND ROSEVILLE MEET SATURDAY

BY THE CUB REPORTER

The Nevada City Yellow Jackets will play the Roseville B gridders tomorrow at 2:30 p. m on Cashin's field.

Coach Barron has announced the tentative line-up as follows:

Left end—Ray Steger
Left tackle—Lloyd Haddy
Left Guard—Gene Thomas
Center—Roman Rozynski
Right Guard—Mervin Doolittle
Right Tackle—Fred Browning
Right End—Jack Clark
Quarterback—Bob Tamblyn
Left Halfback—Tob Doyle
Right Halfback—Murray Young
Fulback—Bud Pierce
Reserves—Don Budi, Nat Robins, Norman Chatfield, Earl Chatfield, Lacy Jones, Carl Tobiassen, Bill Kirkham, F. Joyal, Dick Marriott, Dick Stevens Gove Celio, and P. Joyal.

Coach Barron is optimistic about the outcome of the game Saturday. In an interview with the Nugget reporter, he said, "We have been practicing every night this week. The boys have all reported regularly for practice in spite of vacation. This practice is necessary because I want them all to be in the best possible shape for the game. The boys are in a fine physical condition and mental attitude, which is most important before a game. Blocking and tackling have shown a marked improvement over the past games and practices.

"I have uncovered a new prospect for center in Dick Stevens, who will understudy Rozynski. Clark has been moved from tackle to end, to place more weight in that part of the line. Bud Pierce is back at fullback. Doyle has been moved from fullback to left halfback. This position is called a blocking back in the system which I use. Doyle is an excellent man for the position, being a strong blocker.

This is the first time Nevada City has met Roseville in regular football. I hope the Yellow Jackets will bring their knowledge gained in practice into good use Saturday."

The game Saturday should be well attended by Nevada City fans. It promises to be an exhibition of fast highgrade football.

HUNTING SCENE NOW ALPHA STORES WINDOW

One of the prettiest window displays seen in Nevada City in a long time is the duck hunting scene in the Alpha Hardware store.

Ducks in flight, a handsome pointer, and tules scattered about with a splendid array of guns, ammunition and all necessary accessories creates a charming scene that is attracting in the attention of sportsmen.

LOCAL HAPPENINGS

Christian Anderson and son, Erik, motored to Roseville Wednesday.

Martin Dellea, who owns mining property in the Quarker Hill distrct, was a recent visitor in Nevada City.

Mrs. Arnold Jackson returned last week end from San Francisco where she spent a week visiting relatives.

Thomas F. Cole of Pasadena spent several days in Grass Valley this week. He spent some time looking over mining properties.

Mrs. William Rose of Merced spent a week in Nevada City visiting with her son, Marvin E. Weeks, and wife.

Mr. and Mrs. W. Polkinghorn have purchased a piece of ground from Major Frank Chapman, that lies near the Netz property at the western edge of Nevada City, and are starting to erect a nice home in which they will reside.

GOLD MINERS TO FORM NATIONAL ORGANIZATION

For the first time in the history of the United States, the gold mining operators of the Union and its possessions will meet to establish a national association to protect both large and small operators at the Palace Hotel, San Francisco, at 10 o'clock Tuesday morning, October 24. It means that for the first time since the historic discovery of gold in this country, 85 years ago, gold mine operators of the nation will meet to organize.

In speaking of the meeting, Geo. W. Starr, president of the Mining Association of California, which issued the call for the meeting, said

"It seems fitting that this city should hold the meeting. As the original center of the gold mining industry of the United States, San Francisco is still today that center. Here are the headquarters of the largest producers of Alaska, the Philippine Islands, South Dakota, Nevada and California, with an annual output of 72 per cent of the gold of the nation. Fifty per cent of the gold miners of the nation are employed in California. The large gold machinery manufactures and supply houses here ship their products to every mining section of the globe. California has been, with few exceptions, the greatest gold producer in the Union, each year since 1849.

"From every mining center of the country hearty responses have been received to the call for the meeting. Boh large and small gold mining operators recognize that a strong organization, truly representative of their industry, is essential. Legislation, taxation and many other problems can be guarded against through a national associatoin able to act instantly in the interest of each and for the industry as a whole."

FUNERAL SERVICES FOR LATE REUBEN HECKER

Funeral services will be held at 2:30 o'clock this afternoon for the late Reuben Newton Hecker, who passed away early Wednesday morningfl following a severe asthmatic attack. During the evning before he had officiaed at an initiation of the I. O. O. F. as vice grand of Oustomah lodge.

The deceased was born in Willow Valley 62 years ago and spent most of his life in Nevada City and this vicinity. For some years he was on the local staff of the P. G. and E., but eventually gave up the post because of ill health. In 1894 he married Miss Emily Josephine Scadden who passed away a few years later. A daughter, Miss Elma Hecker, assistant in the county treasurer's office, survives. Sherman Hecker, a brother, residing in Willow Valley is the only other near relative.

The funeral this afternoon will be from the Trinity Episcopal church. The service will be conducted by the rector, the Rev. Charles Washburn assisted by the Rev. Walter M. Gage. The obsequies are under the direction of the Holmes Funeral Home.

Pine Street to Be Highway Link In Nevada City

The city council at an adjourned meeting last evening heard a petition from another group of business men asking the board to designate Pine street as one of the links in both the Tahoe-Ukiah and the Downieville highway. James Penrose headed the delegation presenting this petition. At the last meeting of the board another group, headed by Gove Celio presented a petition asking that Sacramento street be thus designated.

The board last night decided that, in accordance with the preference of the State Highway Commission, which will take over, care for and improve the streets so designated, it would recommend that Pine street be the highway entrance to Nevada City.

The board also heard petitions from various water users who have had their water turned off because of non-payment of water bills, but refused to accede to any of these requests unless a substantial payment is made on the bills in arrears. The board took a very firm stand in this matter.

As a result of the petition of several outside trucking firms, who maintain that the license fees that they are now paying into the city treasury, are discriminatory, the board is consering levying a moderate business license tax which will tend to equalize license fees as between outside truck owners and others doing business in this city and those who reside within the city.

C C C BOYS GO TO SAN ANDREAS FOR WINTER

A group of 166 C. C. C. Camp boys were sent from Seattle, and 45 boys from the Nye Camp in the western foothills of Colusa county were sent to the camp at the southern limits of Nevada City a few days ago.

They will all leave for a camp in San Andreas today where they will spend the winter. A number of these boys are from New Jersey.

STREET IMPROVEMENT SPEEDED BEFORE WINTER

Street Superintendent Herbert Hallett has been busily engaged with a crew of men the last few weeks macadamizing a number of streets in Nevada City before the winter sets in.

Work has been completed on Gethsemene street, Jordan street, and Cross street. On Prospect Hill Nile street to Sacramento was completed last Tuesday and they the are finishing Zion street today.

TRUCK LINE SUSPENDED

The Railroad Commission has authorized R. D. Dorris, operating the Dorris Stage and Freight Line, to suspend service between Nevada City and Forest until May, 1934. The application stated that the destruction of certain bridges on the mountian route, and bad winter road conditions, made the suspension necessary.

LUMBER TALKS

THREE LITTLE SHIPS

Three little ships put out to sea
Pinta, Nina and Santa Maria;
They were trig and trim as they well might be,
Pinta, Nina y Santa Maria;
The ocean was wide, uncharted too,
But their timbers were strong and firm and true,
So bravely they spoke their --
"toot a loo;"
Pinta, Nina y Santa Maria.
Oh, the sea was big when the land grew dim,
Pinta, Nina y Maria;
But there was the captain-they trusted him,
Pinta, Nina y Santa Maria;
They knew he would surely find a way,
To anchor them safe in some sunny bay,
So they sailed right down by night and by day,
Pinta, Nina y Snata Maria.
And what did they find when the voyage was o'er,
Pinta, Nina y Santa Maria?
Why, a brave new world, and a smiling shore,
And this is the lesson we cherish still,
When burdensome tasks our moments fill,
There is always a way where there is a will,
Pinta, Nina y Santa Maria.

—A. M. C.
